REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Applicant's arguments, filed 9/29/2010, with respect to claims 1-3 have been fully considered and are persuasive. The rejection of claims 1-3 has been withdrawn.
3. Referring to Fig. 7, the Applicant's limitations require a recess (11e) formed in a basal end portion of the raised wall surface (11d). The limitations require that the recess be located at the intersection of the raised wall surface and an end face cam surface and to extend into said raised wall surface in the peripheral direction.
4. The previous rejection interpreted the peripheral direction as being along the axis, but as the Applicant's arguments point out, the claim has further limitations regarding the peripheral direction that are not met by defining the peripheral direction as being along or parallel to the axis (such as the plurality of end face cam surfaces extending in a peripheral direction about the turning axial line and equally spacedly arranged in the peripheral direction about the turning axial line). These limitations, in combination with all the other limitations of claim 1, define over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey O'Brien whose telephone number is (571)270-
